

# Recycle Your Used Printer Cartridges And Support Aloha United Way

It's A Great Opportunity To Be: • Environmentally responsible • Conserve resources • AND give back to your Community

**INTRADE CORP.** is a Hawaii based environmentally sensitive organization whose business includes diverting used ink jet, copier and laser toner cartridges from landfills by collecting and supplying them to manufacturers. While we appreciate the donation of empty cartridges, we will pay for certain cartridges according to a price list that we maintain and update regularly.

*We have developed a simple way for a business like yours to be environmentally responsible, conserve resources and give back to the Community. Your company now has the option of either receiving payment for those cartridges according to our buy-back schedule or have us direct that payment to Aloha United Way in your name.*

**Aloha United Way** is the only non profit that considers the need of the entire community. Unlike single cause organizations, AUW ensures that a broad range of health and human services remain intact for all in our community.

*For more information on how you can make a difference contact Mike Owens, Vice President, Intrade Corp. 847-5300.*

**Got Questions? Need Help?**

**AUW has 4,000 Community resources at your service.
